Darkness Descends . . .

...on a city that was once peaceful and productive. It fell completely apart, victimized by a massive crime organization. Looting, random violence, destruction of property—no one who left the sanctity of his home was safe. Corruption had spread like wildfire through the police department, all the way to the top. Even the city government was on the payroll of the syndicate overlord, whose identity had somehow been kept secret.

the force, Axel Stone and Blaze Fielding, two young officers, quit their jobs and planned to move on. As they reached the outskirts

of the city, though, Blaze turned back for what would have been her final look. She stared long and hard at the devastation of the town where she was raised... she turned to Axel, and realized

instantly that he shared her sorrow and frustration. Their eyes met, and without a word they reached an agreement. The syndicate,

and its mysterious leader, must be taken down at any cost...

Axel and Blaze are highly skilled in hand-to-hand combat, and have been trained in the use of various weapons. As skilled and determined as they may be, they are heavily outnumbered. Without your help, the city they once knew may never be restored!

Getting Started

Introduction

When you turn the power to your Game Gear unit ON, the Sega logo appears, followed by the story screens. You can then take a look at the city skyline as it appears in the evening. It's quite beautiful... from a distance it's hard to tell that anything's wrong...

Title Screen

Axel and Blaze appear, determined to give the city back to the people. Press the Start Button to continue.

Mode Selection

1 PLAYER
2 PLAYERS
▶ OPTIONS

There are three modes available: start a "1 Player" or "2 Player" game, or open the "Options" screen and set certain game conditions before beginning play. Place the marker next to your choice by

pressing the D-Button up or down, then enter your selection with Button 2.

Defy the Odds

Choose either Axel or Blaze and take on the wave of slimeballs that have taken over the streets. Profiles of our young heroes appear, Axel's with a colored frame around it. The ex-cops are rated in three areas: power, jumping ability and speed. An "A"

rating means that fighter is very capable in that area, while a "B" rating indicates slightly less ability.

If you think Axel is the one to topple the organization single-handedly, just press Button 2 and the game begins. To select Blaze (so named because of her lightning quickness), move the frame to her profile using the D-Button, then press Button 2. The game begins immediately after you've made your choice.

Double Your Power

You and a friend can team up to wipe out the hordes of goons. You must have one Gear-to-Gear™ Cable (sold separately), and you each need a Game Gear unit and a *Streets of Rage* game cartridge. Insert a cartridge into each Game Gear, connect the cable between the two units, and turn the power ON.

Move through the introductory screens just as in the 1-player mode. The player that selects the 2 Players mode must then make the fighter selection as well. "1 Player" appears above Axel's profile, and "2 Player" above Blaze. If this arrangement is OK, press Button 2. To change fighters, press the D-Button to the right until the 1 and 2 change positions. Then press Button 2 to continue.

The two of you can fight separately, watching each other's back, or you can work as a team to put away the endless stream of thugs. (See Attack Techniques on page 10 for more information.) When one player runs out of lives and Continues, his/her game ends. The remaining player goes on as far as possible with no help.

Options

Place the marker next to a category by pressing the D-Button up or down, and then press left or right to reveal choices.

Sound Test: Check out any of the background tracks or sound effects used in the game. Press the D-Button left or right to reveal a number, then press Button 2 to hear the effect or track. In the case of background music, selecting a different number turns off the last track selected.

Level: Play an "Easy" or "Hard" game.

Exit: Move the marker here and press Button 2 when you're finished. The mode selection screen reappears.

Screen Signals

- 1) Axel Stone.
- 2) Blaze Fielding.
- 3) Player 1's current score. Accumulate points by defeating bad guys, and by collecting bonuses as you clear each Round.
- 4) Player 2's current score.
- 5) Player 1's life gauge. The bar gets smaller as he or she is damaged. When it disappears, you lose a life.
- 6) Player 2's life gauge.
- 7) Player 1's remaining lives.
- 8) Player 2's remaining lives.
- 9) The amount of time in which you have to clear the area you're in. You lose a player if time runs out on you. The timer begins to flash and a warning sounds when the timer hits "15."

Note: Player 1's indicators are always on the upper left hand side of the screen, and Player 2's are on the right side.

Don't Let 'Em Get You Down!

You (and your partner in the 2-player mode), as Axel or Blaze, must win many battles against the low-level thugs of the crime organization in the streets, aboard ship, in a factory and in other venues around the city. Rack up points as you defeat enemies. You're also eligible for bonuses as you clear each Round. Fight the

hoods with your fists and feet, and don't hesitate to pick up a stray weapon (or relieve an enemy of one he or she plans to use on you). There are also items that give you strength to keep fighting, as well as boosting your point total.

You begin the game with 3 lives. The bar in your fighter's life gauge gets smaller as he or she is injured. You lose 1 life when the bar disappears. Losing

all 3 lives brings the game to an end unless you have Continues remaining (see page 16). Your objective is to get through all the syndicate's defenses and come face-to-face with the leader himself. A no-holds-barred battle for survival!

Attack Techniques

Axel and Blaze can employ a number of different techniques, alone or as a team, in defeating the syndicate hardheads. Timing and position are the keys to success!

Note: The use of weapons is explained on pages 12-13.

Normal Attack

Axel: He's a brawler with fists of iron. Press Button 1 to give enemies a four-star knuckle sandwich!

Blaze: She relies more on finesse. Pressing Button 1 unleashes a practiced chop that's guaranteed to do damage!

Rapid Attack

Axel: Press Button 1 repeatedly for Axel's punch and kick combo. His sheer power is too much for almost any enemy!

Blaze: Her specialty is a chop/kick combo which she tops off with a back flip. Very flashy, and very effective!

Jumping Attack

Axel: After pressing Button 2 to make him jump (and the D-Button to determine the direction of the attack), press Button 1 while he's in mid-air to deliver a knee butt that is powerful enough to end most disputes!

Blaze: Press Button 2 to make her jump (D-Button for direction) and press Button 1 for a flying snap-kick. They'll never see it coming!

Throw

Axel: Move toward an enemy, grab him or her, then press and hold the D-Button in the direction the enemy's facing and press Button 1 to heave the thug over Axel's shoulder.

Blaze: Grab an enemy from the front, and using the same button sequence as above, perform a leg toss. Pretty impressive technique!

Back Drop

Approach an enemy from behind, grab them and press Button 2 to execute an earth-shattering back drop. If you grab the enemy from the front, press Button 1 to flip over to the other side before performing the drop.

Team Tactics

#1: Grab your partner from the front and press Button 2. Your partner hurls you into enemies, causing major damage!

#2: Let your partner grab you from behind, then press Button 2 repeatedly to kick out with both legs at enemies in front of you.

Items

As you move through each round, fighting for your life and the future of the city, you'll come across items that give you the strength to go on when things look bleak. The items can be found inside various stationary objects in each round. You have to find the receptacles yourself! When you come upon one, press Button 1 for a Normal Attack to destroy it and get the item inside.

Note: Enemies often come at you with a weapon. If you can defeat them before they use it on you, they drop it and you can pick it up. Move over it and press Button 1. A weapon can only be picked up and dropped a few times before it flashes and disappears.

Lead Pipe: Batter up!

Knife: Thrown or thrust, a great tool for ventilating enemies!

Pepper Shaker: Hit `em while they're sneezing!

Apple: Add some life to your gauge.

Beef: Get back a large amount of your lost energy!

Special: Destroy all enemies on screen!

Coin: Receive a 1,000-point bonus.

Gold Bars: Add 5,000 points to your score!

1 Up: Gain an extra life.

Continue: Get three more lives— if you can find it...

The War Begins!

Round 1- Downtown Streets

Head downtown, bopping your way past the first group of hoods. To get past this area, you have to defeat a boomerang-wielding giant!

Round 2- Bridge

Fight through the next wave of enemies as you cross this hazardous bridge. A roly-poly fire-breathing maniac waits at the other end! One more thing—watch your step!

Round 3- Aboard Ship

No time for shuffleboard as the syndicate's fighters have increased in number and ability. You'll have all you can handle with the two female martial arts experts waiting at the other end of the ship!

Round 4- Factory

The battle continues, with industrial machinery becoming a factor. Conveyor belts, pile drivers and stronger enemies make this the toughest round yet! The blob with bad breath from Round 2 returns to take another shot at you!

Round 5- Syndicate Headquarters!

Actually a posh hotel, the sparkling corridors are filled with the rest of the organization's goons. Their attack is relentless! Nothing less than your best will get you through! Your goal is the ominous set of double doors at the end of the hall. We all know what's behind them—the question is, are you ready for it?
