THE SKY RIDER FALLS...

Thousands of years have passed since a once thriving human civilization perished in the dust. Mankind has nearly been destroyed by its own bio-weapons. These genetically altered creatures turned against their masters, and as a result, the human race was pushed to the brink of extinction.

A tribe of humans known as the "Imperials" recently discovered an ancient tower, a tower that houses an arsenal of devastatingly powerful ancient weapons. The weapons discovered in the tower were used by

the Imperials to hunt and destroy the dangerous creatures roaming across the Earth. Many believed that the human race would rise again, rebuild their lives and live in peace... safe from the bio-weapons of the Ancient Time.

But there is an ancient saying: "Power is the father of desire, and desire is the father of aggression." This is the creed of the Imperials, sworn on being the new masters of the Earth.

You are a member of a hunting party out in the vast and arid Great Plains. You are puzzled at the sight of an Imperial Battlecruiser passing overhead. As you watch the ship float by, a Burrower leaps from beneath the ground and attacks one of your fellow hunters. Your hunting instinct takes over as you chase after it, only to find yourself in an untravelled canyon.

At the end of it is the entrance to a strange, abandoned storehouse. In it, you find more than your quarry. You are surprised by the sight of two dragons engaged in a spectacular air-battle... right above you.

The rider of the armored blue dragon is fatally wounded by a powerful laser blast through his chest. The blue dragon and its rider land before you. The Sky Rider stretches out his hand to you, a desperate gesture for help. As your hand touches his, the Sky Rider's mind and yours become one. In his final thoughts you see the tower that is under control of the Imperials. They have discovered the true use of the tower—the most powerful weapon ever created. With this and the Dark Dragon (a bio-weapon created by the tower), The Imperials will be unstoppable!

The Sky Rider speaks his final words, "Don't... let the Dark Dragon return to the tower... if that happens, the horror of the Ancient Time...."

The Sky Rider falls at your feet, his life force spiraling off into the great unknown. The dragon lets out a piercing cry for its fallen master. You look at the dragon, and it looks back at you... waiting.

A few moments later, armed with the Sky Rider's weapon, you choose to fulfill your destiny—to fight and triumph! And now, the fate of the world rests on the wings of an armored blue dragon....

TARGETING AND SCORING

The laser given to you by the Sky Rider is a relic of the Ancient Time, a powerful weapon... when in capable hands. To use the laser, use the D-Pad to aim at a target (the target should appear inside the rotating box sights) and press Button A, B or C to fire.

To fire the Homing Laser, press and hold Button A, B or C and aim the sights at an enemy/enemies with the D-Pad. When a set of blue crosshairs appears on the target or targets, release the button, and the Homing Laser beam is released. Up to eight enemies can be targeted at the same time.

Each area you fly through contains a certain number of enemies. For each enemy you down, your point score increases. If you destroy more than a certain percent of all enemies in that area you receive a Credit. One

Credit is used each time your Dragon loses all its energy, so target well and destroy as many enemies as you can!

ENDING/CONTINUING

In the **EASY** game you don't need to worry about gaining Credits: you can continue as many times as you like. However, you may only proceed as far as the fourth Episode. In the **NORMAL** game, you start out with three Credits, and in the **HARD** game, you start with zero Credits (the enemy hits a lot harder, too...).

Your Dragon runs out of energy when it takes too much damage from enemies. You can tell how much damage your Dragon has taken by looking at the blue Energy bar at the lower left side of the battle screen. When your Dragon runs out of energy and you have Credits remaining, the Continue screen appears. Select **YES** to continue the game (from the start of the last Episode you were in) or **NO** to exit to the Title screen. If you have no Credits left, **GAME OVER** appears on screen, followed by the Sega logo and the Story intros.
