Eight Fighters, Eight Techniques...

In ancient China, a powerful Kung Fu technique known as Hakkyoku ken (“the Eight-Point Fist”) was developed by the Imperial Guard. This technique won great admiration and many followers. Around the time of the Second World War, the Japanese army developed their own Hakkyoku ken techniques in order to create the ultimate fighting force.

Now, the only active master of Hakkyoku ken – a young man named Akira Yuki – sets off to travel the world in search of enlightenment... and worthy opponents.

He finds them in the World Fighting Tournament, where the strongest fighters have gathered to determine who stands supreme in the art of hand-to-hand combat. Any and all techniques are allowed, as long as the contestants use no weapons but their own bodies. After weeks of intense dueling, seven other warriors remain:

Sarah Bryant and her brother Jacky, both skilled in Sekken-Do... Lau Chan and his daughter Pai and their special variations of Kung Fu... Jeffry McWild, master of the violent Greek fighting style known as Pancratium... The ruthless professional wrestler Wolf Hawkfield... The ninja Kagamaru and his mysterious Hagakure techniques...

All eight of these fighters have arrived to test their methods and their might against each other. Who will stand victorious?

After the challenger has selected a fighter, the match begins. Once the match ends and the clock times out, the Arcade mode resumes at the same level as when the challenger entered the match.

VS lets you and a friend each pick a character and challenge each other. A VS game can be canceled during play by holding DOWN the Guard, Punch and Kick keys/buttons simultaneously.

Option brings up the Option menu.

Ranking Mode is a one-player game similar to Arcade mode. When the game ends, you see a data screen which ranks your overall performance.

Team Battle Mode is where you can organize a tournament battle between two teams of three to five players. Play against the computer, or set up a tournament with up to nine friends.

Watch Mode is where you can watch randomly picked opponents battle it out. This mode is for viewing only.

The Virtua Fighters

The following is a list of the various fighters along with their moves.

See Matrix for control conversions on page 6.

AKIRA YUK

Nationality: Japanese
Date of Birth: September 28, 1968
Height: 5'9" Weight: 167 pounds
Occupation: Kung Fu Instructor
Hobby: Kung Fu
Specialty: Punches and hand blows

Akira is an especially difficult character to use well, as most of his high-powered moves require a combination of several key/button presses while he is standing within grabbing range of his opponent. However, his Mouko Kohazan and Renkan Tai are formidable distance attacks. Learn some of his flashier moves such as the Toushin Soutai and Youshi Senrin – the animations alone are worth the effort!

Date of Birth: May 17, 1995
Height: 5'5" Weight: 108 lbs
Occupation: Action Film Star
Hobby: Ensei-ken
Specialty: Intercepting fighting style

Unlike her father, Pai has learned that the best defense is a strong offense. She can grab her attacking opponents and throw them to the ground, and her stomp attack has a fairly high success rate. As a handicap, try playing without her rapid punch moves and concentrate on throws instead. Hei!

Specialty: Punches and open hand blows

Though generally considered the "cheapest" character, Lau has an amazing arsenal of moves. Like his daughter Pai, he is one of the game's fastest fighters, and his throws do a great deal of damage. Use his Renkan Tenshin Kyaku to surprise the unwitting. HAI!

Nationality: Canadian
Date of Birth: February 8, 1946
Height: 5'11" Weight: 220 lbs
Occupation: Pro Wrestler
Hobby: Karaoke
Technique: Pro Wrestling
Specialty: Charges and body blows

A human juggernaut, Wolf is a power player's character. True to his wrestling background, Wolf moves with a slow but relentless brutality. Use his rushing moves (the Axe Lariat and Shoulder Rush) with caution - if your opponent blocks low, you could go flying off the edge of the ring! Wolf's Giant Swing, though difficult

to pull off, is a joy to behold. Use it while standing near (but facing away from) the edge of the ring to give your opponent the bum's rush!

What Jeffry lacks in speed, he makes up for in power, with single moves that take off a quarter or more of this opponents' health! KAGE-MARU

Nationality: Japanese
Date of Birth: June 6, 1971
Height: 5'8" Weight: 141 lbs
Occupation: Ninja
Hobby: Mahjong
Technique: Hagakure-ryu Jujitsu
Specialty: Body throws, remote attacks

Kage is probably the most agile of all the fighters, and is a terror to watch when played well. His roll kicks combine defense with a surprise offense, while his somersault attacks make him a threat from halfway across the ring. Be careful, though, as abusing his Rairyuu Hishou Kyaku move could leave you high and dry outside the

ring! Although his stomp attack frequently comes too late to do any damage, it does allow him to get behind opponents for a debilitating Haura Gasumi throw.

Date of Birth: July 4, 1973
Height: 5'6" Weight: 119 lbs
Occupation: College Student
Hobby: Skydiving
Technique: Sekken-Do
Specialty: Elbow and Knee Strikes, Barrage Attacks

Although less powerful than her brother, Sarah is Jacky's equal in

agility and speed, and is almost as quick with the stomp attack. Her knee attacks are formidable, but leave her vulnerable when missed. Use her Double-Step Knee to sucker in opponents who like to move in on “missed” attacks. Ya-ho!

Date of Birth: August 28, 1970

Height: 5'9" Weight: 158 lbs

Occupation: Indy Car Racer

Hobby: Training

Technique: Sekken-Do

Specialty: Spin Kicks, Drop Attacks

Jacky is perhaps the best all-around character, with high rankings in speed, agility, and power, plus a wide array of vicious combos. He also

possesses some of the most brutal recovery moves, which will make his opponents think twice about sweeping or standing behind him. His stomp attack is almost impossible to avoid. Another arcade favorite!
